

Mt Blackmore

Date

Sun, 01/03/2021 - 13:16

Activity

Skiing

Skied Mt Blackmore this morning. Very windy up in the basin, but calm along the ridgeline. Lots of signs of wind-loading and drifting on most slopes.

I felt/heard 3 collapses while ascending the trees up to the east ridge. Saw a debris pile on the N face, likely from a cornice fall in the last 24hrs. Stayed low angle in the trees on the way down, and triggered a few 1-2" thick wind slabs on isolated features while skiing out of the basin.

Region

Northern Gallatin

Location (from list)

Mt Blackmore

Observer Name

Mike Lavery
