

Small Avalanche in Bridger Bowl

Date

Tue, 11/08/2022 - 12:45

Activity

Skiing

Small slab avalanche triggered by skier in a small chute near The John and Bronco runs in Bridger Bowl. Propagation from skier's ski, slab slid down through the chute. Crown maybe 10 feet wide. Slab looked about 6 or 7 inches thick. Looked like a layer of new snow from today and yesterday's storm sliding on top of an old crust layer. Nobody harmed, just spooked. Watch out!

Region

Bridger Range

Location (from list)

Bridger Bowl

Observer Name

Joel Power
