

Skier remote trigger in Wolverine Bowl

Wolverine Bowl

Bridger Range

4/5/2023

Code

SS-AS-R2-D1.5

Elevation

8000

Aspect

SE

Latitude

45.83010

Longitude

-110.93400

Notes

Skinner triggered [slide](#) north of the hourglass. Run name unknown. Remotely triggered from ridge line; snowboarder said he was skinning 35 feet away from [trigger point](#); no one buried. I also observed point releases as I was skinning up to texas meadows; snow seemed to change quickly under blue skies and increasing temperature. [Slide](#) ran in front of me, taking out the skin [track](#).
