Taylor Fork Surface Hoar

Date Mon, 12/18/2023 - 15:25

From email: "Just sharing a photo I took of some large <u>surface hoar</u>. This was taken up in carrot basin in a spot that was especially bad, in the shadows sheltered by trees but adjacent to warmer sunny spot. It didn't look like this everywhere but it certainly was a common sight."

Region Southern Madison Location (from list) Taylor Fork Observer Name JT Abate
