

Collapsing on Barronette

Barronette Peak

Cooke City

12/22/2023

Code

Latitude

44.97520

Longitude

-110.08700

Notes

From YouTube comment 12/22/23: "I am an alpine climber - descended from Barronette today, went south all the way down the ridgeline and descended the gully above the start of the XC trail. Heard 10+ instances of whomping and slope collapsing under my feet on both avalanche and non-avalanche slopes on N & E aspects."
