

Second photo of an avalanche likely triggered by a snowplow flinging snow onto the shoulder along 191 inside YNP. Not a dangerous avalanche but an indicator of dangerous conditions higher up in the mountains where the snow is deeper

Advisory Region Southern Madison Longitude -111.08W Latitude 44.83N

Avalanche Details: Hwy 191 Avalanche 3-Jan-25 Southern Madison, 2025-01-03
