

Wet loose in hyalite

Date

Wed, 01/15/2025 - 10:55

Activity

Ice Climbing

Yesterday afternoon, 1/14, saw lots of roller balls and a few sizable sluffs come down around the dribbles area. This morning lots of small sluffs coming down around bingo cave as soon as the sun hit it. Noticeably heavy, wet snow on solar slopes as well.

Region

Northern Gallatin

Location (from list)

Hyalite - main fork

Observer Name

Ben Farrell
