

Gallatin Canyon

Date

Sun, 02/16/2025 - 14:05

Activity

Skiing

We toured from Gallatin River up to 8000'. Generally strong, deep, snowpack. We did not look at north-facing snow at the lowest elevations - that could be weak but doesn't have much of a load. Pretty amazing to have such good coverage all the way down the to river level.

Region

Northern Madison

Observer Name

Staples & Ronczkowski
